Changes: Presentation only: original HTML markup reflowed into plain text; wording, numbering and source repetitions retained. No repetitions expanded.

Completeness: ABBREVIATED. Every source-unit character is preserved, including introductions, notes and verse structure. Thanissaro's collection-level note explicitly states that repetitions were cut: https://www.dhammatalks.org/suttas/about.html. This is evidence about the translation method, not an assertion that every individual unit contains an omission; no repetitions reconstructed.

Text

"Monks, when right view is supported by five factors, it has awareness-release as its fruit, awareness-release as its reward; it has discernment-release as its fruit, discernment-release as its reward. Which five?

"There is the case where right view is supported by virtue, supported by learning, supported by discussion, supported by tranquillity, supported by insight.

"When supported by these five factors, right view has awareness-release as its fruit, awareness-release as its reward; it has discernment-release as its fruit, discernment-release as its reward."
